

LANDSCAPE DESIGN

CENTROPLEX PARKING GARAGE AND PLAZA RENOVATIONS

NEW YORK POWER AUTHORITY

Photo-simulations and computer models were used to visualize both day and nighttime views of the proposed new landscaping around the parking garage, front entry plaza and perimeter public sidewalk areas.

CHALLENGE

The New York Power Authority sought to expand parking facilities in an existing parking garage and significantly upgrade the perimeter of their downtown White Plains headquarters.

SOLUTION

Behan Planning and Design worked with Walker Parking Consultants to develop an upgraded site design and landscaping plan which would completely refresh the urban site and buffer the new parking garage from the adjacent public sidewalks.

PROJECT SPECS

- ◆ **CLIENT**
New York Power Authority
- ◆ **PRIME CONSULTANT**
Walker Parking Consultants
- ◆ **STATUS**
Completed 2018
- ◆ **SERVICES PROVIDED**
Schematic Design
Renderings/Photosims
Public Presentations
Site Plan Approval Support
Planting Design
Civil Engineering
Construction Documents
- ◆ **BEHAN BUDGET**
\$232,000
